4. SELECTION CRITERIA:

a. There will be no automatic selections to the CISM Team; all selections will be discretionary. All eligible athletes will be given the same selection consideration with no preference given to members of specific clubs, teams, or geographic regions.

b. Discretionary team selection will be made by the Team Manager, in consultation with a selection panel. The primary purpose is to select the best physically, psychologically and technically prepared athlete(s) in order to produce medal-winning performances. Based on the context of the situation, the selection panel will evaluate which athletes should be selected to the team in order to field the strongest, soundest and most unified team for this event. Discretionary selections shall be based on the following prioritized criteria:

1) CISM medal potential:

2021 ARMED FORCES MODERN PENTATHLON TEAM SELECTION PROCEDURES

a) A recent history of top finishes at CISM World Championships, UIPM, or USAPM sanctioned domestic competitive level events;

b) Consistently placing high among top-quality fields at international or domestic sanctioned competitive level events;

d) A recent history of strong performance in international or domestic elite competition that would indicate CISM medal potential;

d) Nationally ranked in the top ten within USAPM.

2) Capable of enhancing team performance: An athlete who can enhance team performance is one who, based on experience and current level of performance, is expected to contribute substantially to the overall team performance or to the performance of a medal capable team member. In the case of our selection philosophy, this is deemed to be particularly important in the special case where a medal capable individual has been selected to the team and the athlete's contribution may assist the medal capable athlete in a team medal winning performance.

c. There is no requirement to fill the roster for each specific designated CISM event or gender. Selections will be made based on the ability of athletes to meet the selection criteria.

d. The selection procedures may be subject to change based on the host country or CISM Modern Pentathlon Sports Committee.

5. SELECTED ATHLETES

a. Selected athletes are expected to compete in a regular schedule of training and races, as approved by the Team Manager, between the team selection and the CISM Championship. The reason for schedule approval is to ensure the athlete's focus is on CISM Team preparation.

b. The Team Manager will nominate/select and manage all athletes and staff who participate in these events.

c. All aspects of the team travel, and all on-site logistics and housing for this event will be centrally managed. All athletes and staff who are part of the official U.S. Armed Forces Modern Pentathlon Team delegation for this event must function as a team.

d. U.S. Armed Forces Sports and U.S. Armed Forces Modern Pentathlon committee will not be responsible for or manage logistics for personal team managers, personal coaches/staff, athletes' families, spouses, friends or significant others. It will be the responsibility of these individuals to make separate arrangements for housing, food and transportation and they will be responsible for all costs related to any separate arrangements they might make. Additionally, these individuals will not be credentialed as part of the CISM Team for this event and will therefore not be allowed in the USA Team cabin(s) or pit areas unless specifically granted that privilege by the Team Manager.

e. If possible, the CISM Delegation will be gathered together for staging prior to departure. This normally will be approximately 3-5 days prior to the start of the CISM Championship.

f. Athletes are expected to arrive with all identified requirements, as directed by the designated Team Manager.
