d. There will be no automatic selections to the CISM Team; all selections will be discretionary. All eligible athletes will be given the same selection consideration with no preference given to members of specific clubs, teams, or geographic regions.

e. Discretionary team selection will be made by the Team Manager, in consultation with a selection panel. The primary purpose is to select the best physically, psychologically and technically prepared athlete(s) in order to produce medal-winning performances. Based on the context of the situation, the selection panel will evaluate which athletes should be selected to the team in order to field the strongest, soundest and most unified team for this event. Discretionary selections shall be based on the following prioritized criteria:

1) CISM medal potential:
   a) A recent history of top finishes at CISM World Championships, international or domestic competitive level events;
   b) The ability to produce medal capable times under certified conditions within the past 12 months;
   c) Consistently placing high among top-quality fields at international or domestic sanctioned competitive level events;
   d) A recent history of strong performance in international or domestic elite competition that would indicate CISM medal potential.

2) Capable of enhancing team performance: An athlete who can enhance team performance is one who, based on experience and current level of performance, is expected to contribute substantially to the overall team performance or to the performance of a medal capable team member. In the case of our selection philosophy, this is deemed to be particularly important in the special case where a medal capable individual has been selected to the team and the athlete's contribution may assist the medal capable athlete in a team medal winning performance.

f. The selection procedures may be subject to change based on the host country or CISM Parachuting Sports Committee.
g. Under the provision of CISM Parachuting Sports Committee Rules paragraph 2.3, each nation participating with a team has to nominate one judge with an international parachuting license (CISM and/or FAI) in at least 2 categories. FAI judges must be qualified to judge at an IPC 1st category event. The name of the Judge appointed by the nation must be specified in the Preliminary Agreement to the WMPC.
